## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 1-11, 15-17 and 21 rejected under 35 U.S.C. 102(e) as being anticipated by Leussler (US 6,825,661).

As regards to claims 1 and 21, Applicant's attention is directed to figures 1-3 (column 2-3 and 5-6) of Leussler, detailing each element of the instant claimed invention(s) relating to a shielded treatment room used for MR imaging, including a basic magnetic field magnet, gradient field magnet(s), RF pulse generator, and means for counteracting the electromagnetic effects of RF pulses outside the target area in the treatment room.

Leussler, further, discloses all elements of claims 2-11 and 15-17, pertaining to other aspects of treatment room and counteracting means to increase desired shielding for MR imaging (page 2, page 3-4, column 2 and 1, respectively).

2. Claims 12-14 and 18-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 2859

3. Applicant's attention is directed to US patent # 6,590,391, which also could be used to either anticipate or in combination to reject the above rejected claims.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brij B. Shrivastav whose telephone number is 571-272-2250. The examiner can normally be reached on 7 AM to 4 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Diego F. F. Gutierrez can be reached on 571-272-2245. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

5. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
